ABOUT ME

Full-Stack Web Developer with hands-on experience in building responsive, scalable, and high-performance web applications using the MERN stack. Proficient in MongoDB, Express.js, React.js, Next.js, Node.js, and modern web technologies, with experience in RESTful APIs, authentication, and UI development. A background in Unity game development (2D/3D) and C enhances problem-solving, performance optimization, and debugging skills. Seeking opportunities to contribute to innovative, technology-driven projects and grow professionally.

EXPERIENCE

MERN Stack Web Developer / Frontend Developer

Project-Based Experience

📅 Jun 2025 – Present

- Developed responsive and scalable web applications using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Built reusable React components and managed application state using React hooks.
- Integrated RESTful APIs and implemented JWT-based authentication.
- Optimized frontend performance and ensured cross-browser compatibility.
- Used Git and GitHub for version control and collaborative development.
- GitHub: [Click Here](#)

Associate Software Engineer

Connexus Technologies

📅 Jun 2023 – Present

- Developed multiple 2D, 3D, and hyper-casual games from scratch using Unity.
- Designed core gameplay systems, implemented new features, and improved mechanics.
- Focused on performance optimization, player engagement, and rapid iteration.
- Live Apps: [Click Here](#)

Game Developer Intern

Glixen Technologies

📅 Jan 2023 – Apr 2023

- Worked on 3D Unity games with a focus on UI improvements and gameplay enhancements.
- Collaborated with team members to refine mechanics and optimize user experience.

Game Developer Intern

Survival Tech Valley

📅 Aug 2022 – Nov 2022

- Contributed to multiple 3D game clone projects by implementing UI changes and adding features.
- Strengthened skills in Unity and C# scripting through collaborative development.

PROJECTS

Restaurant Web Application

MERN Stack, React.js, Tailwind CSS, Node.js, Express.js, MongoDB

📅 2026

- Full-stack restaurant web application with an admin dashboard and user panel.
- User features include table booking, food ordering, profile management, and secure login (JWT).
- Admin features include order and booking management, menu CRUD operations, and payment tracking.
- Tech stack: React + Tailwind, Node.js + Express, MongoDB + Mongoose, REST APIs.
- GitHub: [Click Here](#), Live App: [Click Here](#)

E-Commerce Full Stack Web App

MERN Stack, React.js, Tailwind CSS, Node.js, Express.js, MongoDB

📅 2025

- Advanced e-commerce platform with filtering, searching, cart, purchasing, image zoom, and CRUD operations.
- Secure authentication using JWT tokens.
- Fully responsive modern UI.
- GitHub: [Click Here](#), Live App: [Click Here](#)

Book Shop Web Application

MERN Stack, React.js, Tailwind CSS, Node.js, Express.js, MongoDB

📅 2025

- Built a MERN-based book shop application with JWT authentication.
- Logged-in users can access all books, while logged-out users can view free books only.
- Developed REST APIs using Node.js and Express.js with MongoDB, and a responsive UI using React.js and Tailwind CSS.

EDUCATION

MCS – Master of Computer Science

The Islamia University of Bahawalpur, Bahawalnagar Campus

📅 Oct 2020 – Jul 2022

📍 CGPA: 3.67/4.0

SKILLS

C#

JavaScript

TypeScript

HTML5

CSS3

React.js

Next.js

Node.js

Express.js

EJS

Tailwind CSS

MongoDB

MySQL

FastAPI

JWT Authentication

REST APIs

Git

GitHub

GitHub Actions

Netlify

Vercel
